

Krishnan Ramabadran

Bio of Speaker : Krishnan Ramabadran is the Founder & CEO of Zentron Labs. Krishnan was formerly a chip-designer, managing high-tech teams for Texas Instruments. His strong enthusiasm for entrepreneurship drove him to co-found Cosmic Circuits, a successful startup where he honed his business skills; Krishnan turned back into technology with system-design based on Vision and founded Zentron labs. He spots opportunities, likes technology, and enjoys music. With B.Tech. and M.S. degrees from IIT, Madras, he is often found sharing his engineering experience and solving challenges behind the scenes.
